REPORT OF FOREST FIRE WARDEN AND DISTRICT CHIEF

After several successive years of drought, the rains of 1967 came as a welcome change. Our record of the past fire season is good. Our thanks to all who contributed to achieve this good record. Continued improvement in the matter of accurate, prompt detection and rapid effective suppression action can help to maintain this good, worthwhile record even though we do not have an abundance of rain as in the fire season of 1967. It will help if we follow these simple suggestions:

It will help if we follow these simple suggestions:

1. No burning of debris and waste between the hours of 9:00 A. M. and 5:00 P. M. and then only with a written permit from the Forest Fire Warden.
2. Take debris and waste to the town dump.
3. Maintain a clean, safe dump.
4. Keep matches away from young children.
5. Be sure matches and smoking material are dead out when we discard them.
6. Set a good example for others in fire prevention.

WHY SPEECH THERAPY?

A child sits silently in his first grade classroom day after day unable to communicate with the other children or the teacher because his speech has not developed as rapidly as the other children's speech. A girl in Kennett High School dreads being called on in class because her hesitant, stuttering speech makes talking so difficult for her. Across the hall another student is straining to catch all that the teacher is saying. This student is handicapped by a hearing loss.

These are just some of the cases in our school union which have been helped through speech therapy. A total of 125 students have been enrolled in this new remedial speech program. The following breakdown shows the number of students enrolled in speech therapy from each school:

Conway — 22	Tamworth — 20
Pine Tree — 10	Madison — 7
John Fuller — 24	Jackson — 3
Kennett — 12	Chatham — 2
Bartlett — 15	Freedom — 10

Defective speech can be defined as speech which calls attention to itself. When a child uses speech that is not normal or that calls attention to itself, a program of speech therapy is necessary. Our goal is to help the child with defective speech attain normal, acceptable speech.

To facilitate this end we are fortunate enough to have some very up-to-date equipment, including one item of special importance — a video tape recorder. This machine is like a miniature T. V. camera in that a child's image can be recorded on tape along with his voice. We then play the tape back so the child can see and hear himself on the T. V. screen.

This has proven invaluable in correcting some children's speech.

Speech difficulties are not something that occur only in other communities to other people's children. We have realized that fact here in School Union No. 9 and have set up an adequate program of speech therapy to help those children who need help in speech.

ELEMENTARY GUIDANCE COUNSELING

As an Elementary Guidance Counselor for Supervisory School Union No. 9 under the Title I Project, I am also a member of the teaching staff; and am concerned with the normal learning development of all the elementary school children in the Union.

Vocational Guidance is a part of my service. I feel that students should be exposed to the world of work, and should be helped to understand their own abilities and interests so that they can make realistic choices. Educational Guidance is closely related to Vocational Guidance and all other types of guidance, individual or group.

In addition to my personal contacts with students and consultations with teachers and parents, I give such tests as the Stanford Achievement Test, the Lorge-Thorndike I. Q. Test, and the State-Wide test for the eighth grades. These I evaluate and correlate in statistical form.

I am also trying to launch research on the effectiveness of the guidance program as regards its value to school children in their learning and developmental attitudes toward school.
